

## Wool Project

Ann Wilson will teach this project at the 2024 UTQG Retreat

## Bluebell Cottage

She will provide all the wool for the kit, the pattern, and a variety of embroidery floss. She will also supply Press 'n Seal wrap, freezer paper, and lightweight fusible web. Students will provide their own backing fabric, usually cotton or felt.

Since the wool will be over dyed, colors will vary and it is impossible to designate any specific colors of embroidery floss. Ann will choose the floss after she dyes the wool and will bring enough for the class.

The total cost of the kit is \$10.00

Students will need to bring paper scissors, fabric scissors, and needles. We will have the ironing stations available for pressing.
